

# Dataminr Tech Alliance Partner Program

Integrate powerful real-time information for customer resilience

Connect your solutions with the Dataminr platform to help your customers mitigate operational, cyber, and business risks more effectively.

## Dataminr's Commitment to Partners

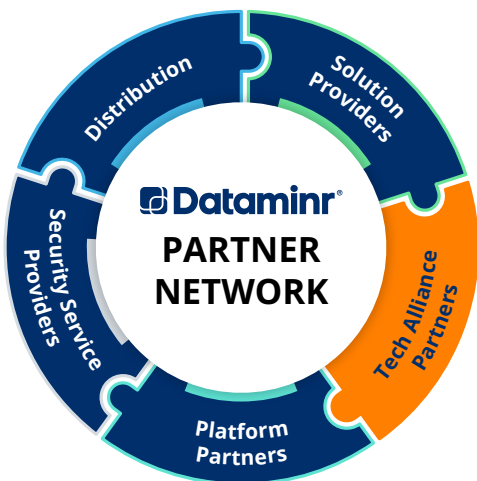

Transform your customers' crisis management, business continuity, and operational resilience by helping them make informed decisions with actionable alerts from Dataminr. The Tech Alliance Partner Program provides support to bring new integrations to market faster with technical enablement and go-to-market collaboration.

With Dataminr, you can:

- ✓ Solve new and complex customer challenges by leveraging publicly available information and open-source intelligence
- ✓ Reach new parts of the business with enhanced risk detection
- ✓ Add powerful AI-powered event detection to your solutions

Dataminr is recognized as one of the world's leading AI businesses.

Join a growing ecosystem of Tech Alliance Partners that includes major software and cloud providers.

## Why Partner with Dataminr for AI?

### Powerful Integration

Dataminr's platform detects critical events in real time by monitoring and correlating diverse signals from nearly one million public data sources. Easily integrate AI-powered information and alerting with your solutions using a robust, fully documented API to enhance customer experiences.

### Proven platform

Trust in a platform that serves half of the Fortune 100. Dataminr was also recognized in the Forbes AI 50, Forbes Cloud 100, and Deloitte Fast 500.

### Reduced Customer Risk

Improve customer outcomes with multi-modal risk detection and proprietary AI models.
