

Dataminr Platform Partner Program

Uncover innovative applications of Dataminr’s real-time information discovery platform to enhance your products and services and grow your business

Dataminr’s Commitment to Partners

Transform your customers’ crisis management, business continuity, and operational resilience by helping them make informed decisions with actionable alerts from Dataminr. Leverage our groundbreaking real-time AI platform to expand your offerings and deliver positive results to your customers. With Dataminr, you can:

- ✓ Build new product capabilities with our innovative AI platform, which correlates data across multiple formats, including text, images, audio, and video
- ✓ Alert on emerging risks from global to hyper-local
- ✓ Enable customers to manage critical risks and events as they unfold, improving outcomes
- ✓ Corner new markets as an early mover

Why Partner with Dataminr for AI?

Powerful Integration

Dataminr’s platform detects critical events in real time by monitoring and correlating diverse signals from nearly one million public data sources. Integrate the platform API into your tech stack to deliver AI-powered information and alerting that enhance customer experiences.

Flexible Go to Market

Maximize customer value with revenue sharing agreements that let us win together.

Proven Platform

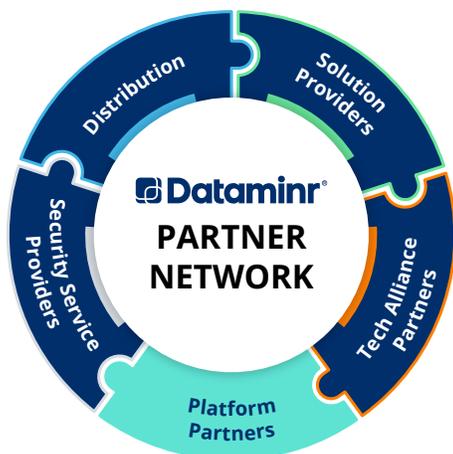

Trust in a platform that serves half of the Fortune 100. Dataminr was also recognized in the Forbes AI 50, Forbes Cloud 100, and Deloitte Fast 500.

Reduced Customer Risk

Improve customer outcomes with multi-modal risk detection and proprietary AI models.

Dataminr is recognized as one of the world’s leading AI businesses.

Platform Partners are part of the broader Dataminr Partner Network, a unified global program offering a best-in-class experience.
